Give him powdered Belran grass
That will solve his issue
His voice seemed excited
Overall, he appeared to be arrogant
But, at the same time, he was kind and cheerful
That was Yandal's first impression regarding Tuge.

pant
Where are you taking me
I said, where are you talking me ?
To my home
I can t live in a such a house !
It s not like you could live in Salre
Why are you doing this ?
Beacuse t looked like you were going to kill yourself

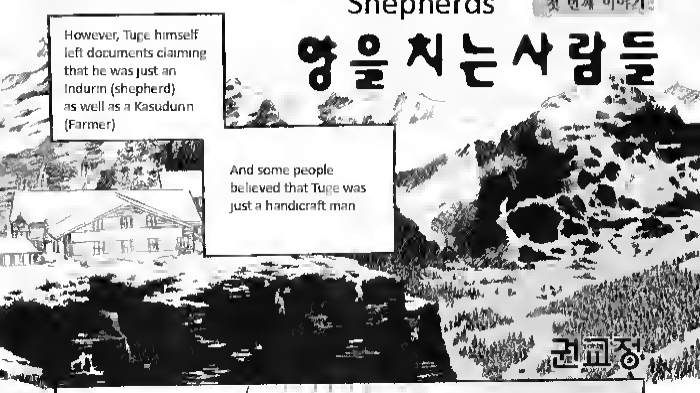
The weather is getting c...
Come in.
Oh ...
Who is he?
Mother, this is ...
For your information,
Even among the most intelligent historians,
Not many were able to figure out why the famous Tuge
The greatest mage in Salre who ran the whole village was taken in by a mere Indunn shepherd
Some historians insist that Tuge had done so in order to reach high level of knowledge he sought.
Some claim that Tuge was sick of his village life and chose the harsh life style of an Indunn

Shepherds
양을 치는 사람들



However, Tupe himself left documents claiming that he was just an Indurin (shepherd) as well as a Kasudurin (Farmer)
And some people believed that Tupe was just a handicraft man
권교정

When historians looked up his records,
It began
in an era where an ice age was nearly ending and excessive water (flood sea level rise) had been destroying various settlements

You could have refuse more kindly !
Not once have we rece ved such a poor offer for a job since Salre was founded
So, excuse me for being a little stingy
Since when Indurns abandoned common sense ?
But what I asked was a simple task !
Just build taller fence
Or use poison
What is going on Ister
This young Indurn man d dn t prepare for proper payment so I was turning h m away
He s really pssed I shouldn t meddle in hut

But I am in good mood today.
So, young man,
What brings you here ?
Well...
Recently, some wild beast has been raiding a field by my home.
My crops are being ruined
I wanted to chase them away
Hm ?
How about building taller fence ?
Fence won't work
It must be pretty big It's destroyed fences
How about poison then?
See ?
Well...
I don't want to kill it.
It will be fine as long as I can repel the beast
Not using magic for such a task is really waste of time and energy.

You do realize you are offering only a ba of Kure.
...
But
There are knowledge that doesn't rely ou magic
Isiter
Give him some powdered Belran grass
That should work
Use this on your field
Make sure to put on your crops
No wild aumals will bother your crops
Isiter let's cook Kure for snacks for guests
Kure in this season taste very good

Excuse me, who is he ?
Ah
That man is
The great mage Turge. He runs Salre
Historians could only guess what k nd of impression the young Indurin received
All historians can do is guessing based on what's been recored.
Young time no see, Yandal
Did you bring cheese ?

Very good.
Money or trade?
Flours please.
Alright.
So Salre is done for ?
Pretty much
The great mage has gone insane.
His students looted the village and fled
JANIMES.COM
What happened to Salre ?
You haven't heard ?
It's been a while.
Salre has been abandoned.
Now we don't have anyone to ask for help with mag c
Ask them for help ?
They were greedy bastards !
I couldn't call it help.

All mages are the same.
About a month ago, Salre's great mage got ill...
gave up on him, so they were
To make it worse, he became insane and tried to kill his students.
It took a long time for Yandal to hear the news about Salre
But it took Yandal less than half a day before he ran to Salre...
In the end, his students looted everything out of the village and ran away.
The mage is left alone. He might be dead by now.
He ignored rumors that Salre might have been cursed.

The reason he broke into the village was
Probably out of respect for treating him well at one time
He was probably expecting to find his body and bury him
Unexpectedly however—
He was still alive
Who are you?
I am
Yandal. I live beyond Bodan mountain
Sir mage !

You are drunk
Yan?
Is no one here ?
I am here ! I am alone.
I kicked them all out.
Are you alright ?
What if I am not ?
Villagers said you were ill and dying
And ...
Maybe I should skip the crazy part
Fever
Yes
I was ill for few days.
I had some fever
Well
Get a hold of yourself and tell me ! Where are your students ?
Would you please not yell ?
They are not students They are colleagues

Where are they ? Haha...
I sent them away.
...
I don't need them anymore.
Not anymore.
It's gone...
It's gone...
I was always full of t
Then it was gone one day
This s supposed to be a mage s house
What am I ?

What's gone ?
Did they steal
it from you ?
Magic
Mana
It disappeared
Completely
You know
what ?

I can barely do anything
Magic was all I had...
I'd guess so
But you are going to have to learn
You expect me to be become a shepherd ?
Don t shepherds do nothing but stare at sky w th a bunch of sheeps ?
I don t have that many
All I have s four
Don t you rent sheeps ?
Not anymore
I just farm for food
And make cheese out of sheep milk to sell
Is that enough to l've ?
So far yes
But with one more mouth I guess I need to fnd extra income
Ugh!

This is not how you till a field !!!
Roots are clearly intact !
In two days, these will grow full again !
Ah !
What's wrong with this leather?
What did you clean with it ?
How come ...
Why can't you do such a simple task like gathering eggs ?!
I didn't know chickens would be so fierce.
Sigh...
You are so useless ..

He's tilling without having breakfast ?
You must understand him.
He hasn't spoken since yesterday
He was like a noble a while ago.
I am sure he hasn't touched a soil until recently
And he had no plan to
He is doing something he'd have never even imagined
바이

What are you look ng at ?
Noth ng
You suck at it. I am just telling you truth
I know
Why are you so pissed about then ? You haven t spoken a word since
Ahah

I wasn't angry
I just didn't want to speak words
So, you were venting on me !
No, I was not
I wasn t angry at anyone
I just
When you told me how useless I was yesterday
I realized
How much I invested and relied on magic
I gambled everything on magic
JANIMES.COM

When I thought so
Somehow I felt satisfied
Really
I was proud
"The great mage Tuge" Indeed !
Magic was everything for me
It sounded so nice and romantic

At the same time
Everything is gone for me now
I didn't feel like talking
I felt so lonely
Please understand that at least
If not, this is going to be too hard.
So ..
Your students just abandoned you ?
They were not students
I sent them away
I let them go
Since the moment I was no longer a mage they had no reason to be with me
So, they took your stuff and ran ?
Isn t that a little too mean ?
What are you saying ?
I distributed my stuff to them

They deserved it
Besides if I kept my stuff bandits would have come anyway
Isiter...
He refused to leave no matter what...
I had to act like a madman to send him away
Isiter That guy
Even so !
Isn't it too mean to just abandon you just because you lost magic ?
Haha !
You think I'd say it ?
That my magic was gone ?
There is absolutely no way I'd tell that to anyone !

Did you ...?!
Did you tell that to anyone ?!
Eh ?!
No. I haven't met anyone
Mother knows though
I will kill you if you say it to anyone
No way could you kill me without magic
If you said that a month ago
Even if it was a joke I would have attempted to kill you
But
A month can be a long time...
What...
Were you doing ?
You had been alone for many days

I was giving up...
...and giving up more...
Every single day, I was giving up one thing and then another.
Giving up completely was hard.
Harder than having a faint hope.
Look...
It doesn't shine anymore
It's right on my palm and does nothing !
Do you know how ridiculous th s seems ?
I am holding the most concentrate form of mana and it doesn't react !
I should have given this to Isiter...
Looks like I haven t given up completely yet...

Historians in the future believed that the days of ice age was over and water was gathering at that time of this story. Flood was expected
Rainy summer and windy fall
The ice age was finally over
Even so the lives of Indurins were still harsh
They no longer had to savage food under thick coats of snow and ice.
Even so, to survive long and harsh winter of the region
They had to work every day

Very often
They had to work even after sun went down
Yandal
About your mother
Shouldn't she see a doctor ..
Th s spring
I took her to a doctor He said it was too late.
He said she would not make it past summer
휘이
But she managed well this far
Snow

There is no written records stating whether Tuge was a bad person or not.
it recorded however that young Tuge had a dream which he failed to achieve fully
In his later days he concentrated on supporting other magic users to help them develop magic indirectly
The sheeps are crying a little strange I am going to check
According to records, Tuge didn't seem to have any d scriminations regarding gender class, and color of skins
All he cared was
People s ability to manipulate mana
This record was written by Tuge s old fr end, Ister
Hmm

What's wrong ?
Another seizure ?
Mr Tuge
I am glad and thankful that you are here
I thank God that
My son won t be left here alone with my decaying corpse

I should have let him get married ...
A girl... from the village of Pion liked him
But I sent her away
I didn't like her
She worked in a bar ... There were bad gossips about her ... And she seemed greedy ...
Still he wished to marry her
But I said no
JANIMES.COM
If I knew ...
If I was going leave this soon
Even such a woman I should have let h m get married
I do think she liked him sincerely since she was willing to relocate here ... This barren place ...

Mr Inge
I thank you for coming and staying here
I realize that you are a very noble person
But please don't leave my son alone
Humans ... mustn't live alone ...
For far too long ,
He has lived with me
And now he is about to be all alone

But you are here
Thank you ....
Thank you

Thanks...
I am glad you are here...
I am glad that you are here...

My mother died in peace because of you
Thank you for seeing her off.
And
Thank you for being here now
But ..... who me in, fed me and kept me alive.

Mmm
Last year s quiz was how Dores could cross a river without getting wet
Dores again ?
Quiz they g ve out always has something to do with Dores
The poor guy
Anyway on that year an answer from a mage named Vadal was the most popular
Most suggested a simple water walking as a solution

Water walking ?
Yes, with magic, you can simply walk on it.
Wow, is that even possible ?
Of course
But mana consumption is gigantic
If a mage cast such a spell on all of members of his group, he'd die before they walk across a river
Anyway Dores isn't powerful enough
Even you ?
Hm
I could have supported about 5 people
Anyway what Vandal suggest was that

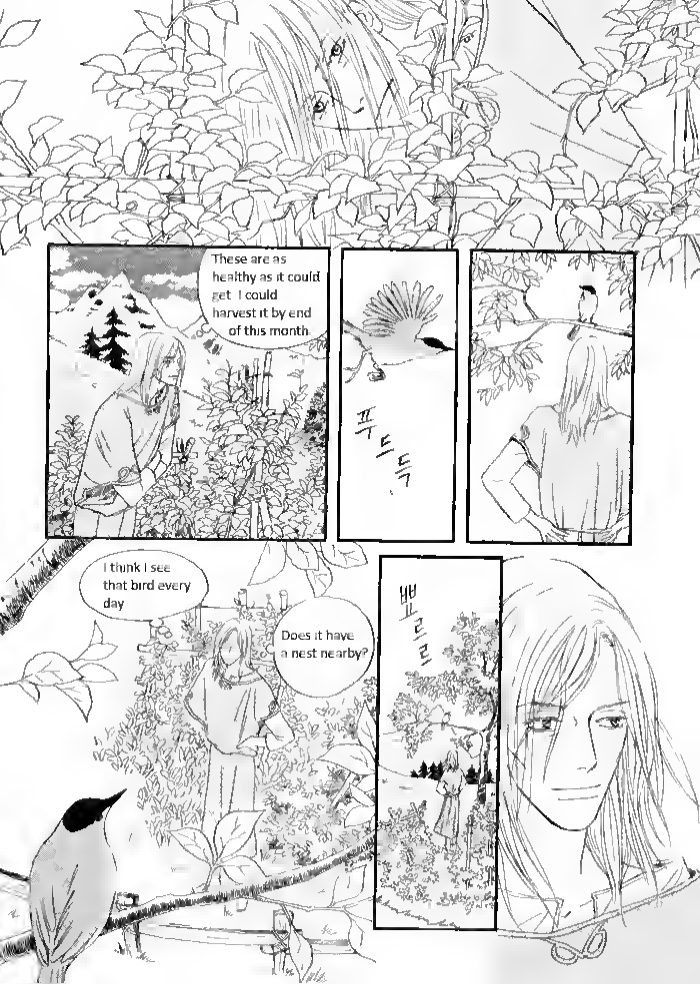
What are you looking like that ?
No
I... uh kind of realized only now that you were indeed a great mage
Is my story boring ?
It's not that.
Who by the way is making a mere basket next to me right now—
I suddenly felt saddened...
All done !
Take a look.
Let me see.
Oh... wow, you are really good

No one will believe that this is the first one you made !
Yeah ?
Yes
I think I could even sell it when I visit a village next time
You are going to sell it ?!
The quality is pretty nice I think I can get a good price for it
Really?
Do you th nk I should specialize at this ?
의기 양양
Look, I grew muscles
Well you ve compared to last year

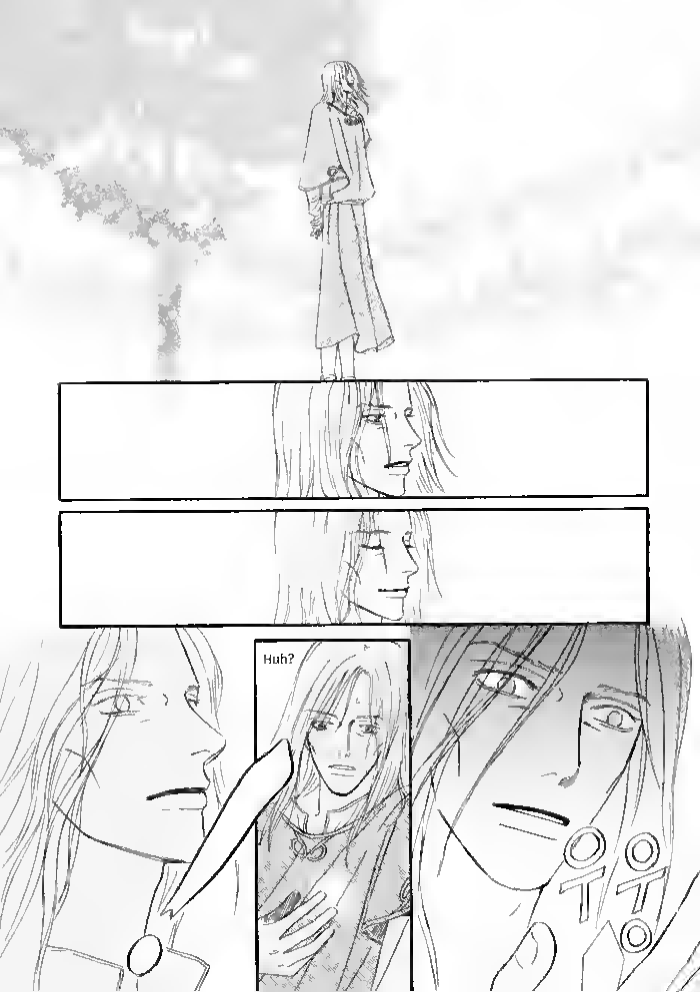
He really good at making baskets, but he's very disorganized when farming...
그가 지나간 자리
Look !
It grew so much over a night !

You don't look despressed anymore
You want me to be depressed?
I don't mean that...
I told you
I cut my bes to my past
Whoever I was in the past means nothing now
But...
Who knows?
I don't have any unfounded expectations
Besides...
JANIMES.COM

I am learning new things now.
Anyway
Comparing your and my crop...
Is it just me ? I think my crops look healthier and taller.
Yes, it is just you.
Going to the fields again ?
Just for a moment. It rained all night.
Weeding had no effect since it rained but the crops are liver



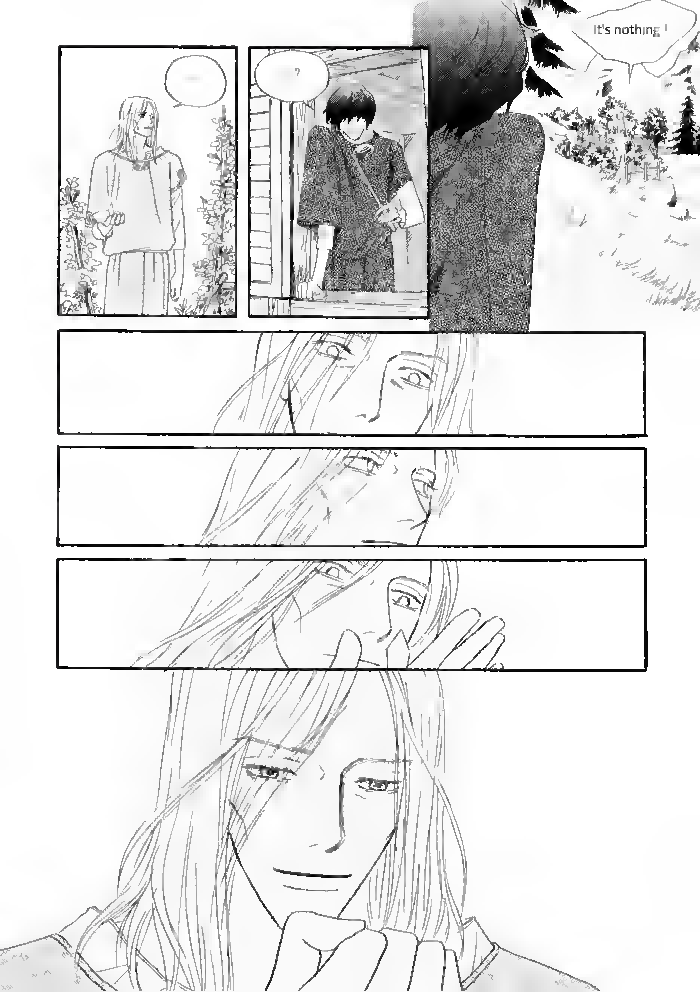
These are as healthy as it could get. I could harvest it by end of this month.
끼 드 득
I think I see that bird every day
Does it have a nest nearby?
삐 르 르



Huh?

우우

De...
Ark...
I am ready !
We need to make cheese!
Get me some sheep milk !



?
?
It's nothing !

Alright !
I will get the milk soon
Tuge in his late years was very fond that he didn't have to rely on mag c for most of things he did
Even though no one had seen him cast any magic for 18 years he spent his life as a mere indurin in a mountain. there had not been any early frost at all. Such a mystery was indrectly proving that the great mage Tuge indeed lived there
The End
